

HYDROFILLER FACE TREATMENT FOR NORMAL SKIN

WATER MASSAGE BASE

This treatment uses Aquablend to re-acquaint the skin with beauty, with 3D moisturization. The benefits are evident from the very first sessions: increased radiance, soft skin with a “wake-up” effect.

Recommended for

Normal skin.

Actions

- Moisturizing action
- Smoothing and silkening effect
- Improves micro circulation

Products and Method (45-60 minutes)

	With cotton pads, remove makeup, if necessary, with the right amount of Duo , shaken before use*. Wipe with a wet cloth.
	Gently massage 3 ml of Hydr mousse on moist face, wetting your hands to ease the creation of soft foam, then wipe with a cloth soaked in lukewarm water and wipe dry.
	Squeeze 3 ml of Bio peel , distribute on face and neck massaging for at least 1 minute, avoiding the eye area. The light heat sensation that occurs during the massage is due to the formula, not to hyperaemia; this enhances the performance of this extremely gentle renovating product and guarantees maximum comfort. Wipe with a cloth soaked in lukewarm water and let dry.
	Distribute 3 ml of Aqualotion on face and neck, facilitating absorption with a light massage.
	Apply on face and neck 6 drops of Ozone Activator Plus and let absorb, then using about 3 ml of Sublime perform a stimulating massage to reactivate blood circulation, promote oxygenation and adequately prepare the skin for the application of the mask.
	Apply on face and neck 10 ml of Water Massage Mask and leave on for 10 minutes, then massage the product for at least 10 more minutes, until completely absorbed. Remove only excess, if present, with a barely damp cloth, to obtain the “wrapping” effect specific of this mask.
	Complete with a thin layer of Citymoist (1 ml) .

* This product's special composition enhances the removal not only of mascara and eye shadow, but also foundation, face powder and blush, ensuring a transition to the true cleansing phase without makeup residue.

FACE CLEANSING WITH ACTIVE OXYGEN

OZO[FACE]

The face cleansing is an evergreen and basic treatment that – alas – is sometimes the sole request made by some customers. Here is a targeted proposal, aiming at turning it into a special occasion, which guarantees outstanding results and tempts the customers to “discover more”. Active Oxygen sets up a treatment route being dynamizing and purifying, energizing and renewing, all at the same time. The face skin is perfectly cleansed and becomes bright, vital, free from imperfections and shows off all its splendour.

Recommended for

Alternate it with the traditional face cleansing. Suitable for the recovery of tired and run down skin.

To introduce the quality of treatments to less loyal customers.

Actions

- Revitalizing and renewing action
- Long-lasting purifying action
- An immediate “new skin” effect.

Products and Method (45 minutes)

	<p>Cleanse the skin using 10 ml of Cleanozone. Then rinse.</p>
	<p>Take 3 ml of Biopeel, spread it on face and neck massaging it in for at least 2 minutes, avoiding the eye area. The slight warmth produced during the massage is due to the formulation and not to hyperemia and fosters the effectiveness of this ultra-mild renewing product, while concurrently assuring the utmost comfort. Rinse using a napkin moistened with lukewarm water and then dry. Finally, wring out the napkin.</p>
	<p>Perform a compress using tissue-paper or non-woven tissue dampened with Aqualotion (approx. 20 ml). Leave on for 5 minutes.</p>
	<p>Perform the specific massage with 5 ml of Ozone Activator Plus.</p>
	<p>Using a brush, apply 10 ml of Be-Calm on your face and leave on for 10-15 minutes. Then remove the product with a dampened soft napkin.</p>
	<p>Apply 2 ml of Emergency as final cream.</p>
