

ACID GREEN MINERAL PURIFYING MASK

A professional mask comprising an emulsion rich in natural powders, such as green mineral Clay and Bamboo Charcoal, exerting a sebum-absorbing action perfect for the treatment of oily skins.

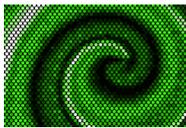

It contains Alpha-hydroxy Acids and Salicylic Acid, featuring exfoliating and dermopurifying properties, and Pureness Blend, a combination of Rose Hip, Burdock and Liquorice Root extracts, able to reduce the pore size and visibility, regulate the sebaceous secretion, rebalance the skin and confer a dry and pleasant after feel.

Sebum-absorbing and purifying mask
300 ml tube, for professional use

Characteristic ingredients

Pureness Blend

The exclusive Beauty Spa blend for oily skins. It combines three targeted plant extracts: Rose Hip, Burdock and Liquorice, exerting a stunning action. The first reduces the sebocyte differentiation, slackens the sebum secretion and resizes the pores surface, ensuring a mattifying effect; Burdock normalizes and rebalances the skin tissue, while Liquorice is rich in glycyrrhetic acid, which features cortisone-like properties guaranteeing an effective treatment of inflammation.

Bamboo Charcoal

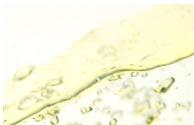

It is a highly porous powder derived from carbonised bamboo. Characterised by an excellent absorption ability, it boasts detoxifying and purifying properties, making it best suited for composition and oily skins.

Mineral Clay

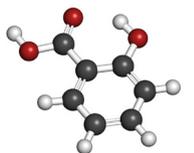

Mineral Clay boasts a well-known absorbing ability, making it essential in treating oily skins. It further features interesting mineralizing properties, acting on the beauty and health of skin tissue.

Alpha-hydroxy Acids

The Alpha-hydroxy Acids (AHA) are organic acids derived from fruits and plants, whose chemical properties lend them hydrating and exfoliating features. They gently renew the skin, fostering the cell turnover and giving brightness and uniformity.

Salicylic Acid

It is a beta-hydroxy acid derived from the enzymatic hydrolysis of salicine (extracted from the willow tree), characterised by sharp polishing and keratolytic properties. It fosters the exfoliation of superficial skin layers.

How to use it

Apply the mask on perfectly cleansed skin, better using a brush. Leave it on for at least 20 minutes, depending on your skin's features, then remove thoroughly.

Warnings

The product is formulated in compliance with current European legislation. Under normal conditions of use, at the present time, the product has no particular contraindications. Use only on unbroken skin. Avoid eyes area.

PURIDERMA 18

REGENERATING NIGHT CREAM

This highly performing product uses the night hours to allow the skin to regenerate and restore its optimal balance. To this end, it contains Pureness Blend, a mixture of Liquorice Root, Burdock and Rose Hip plant extracts, exerting a purifying, normalizing and pore visibility reducing action. Moreover, it makes use of Glycolic and Mandelic Acids to stimulate cellular turnover and improve skin's texture.

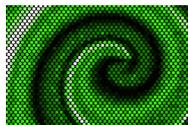

Thanks to this intense rebalancing and stimulating action, in the morning your face will look bright - but not glossy - fresh and softly renewed.

Renewing and rebalancing night emulsion
50 ml vase, for home use

Characteristic ingredients

Pureness Blend

The exclusive Beauty Spa blend for oily skins. It combines three targeted plant extracts: Rose Hip, Burdock and Liquorice, exerting a stunning action. The first reduces the sebocyte differentiation, slackens the sebum secretion and resizes the pores surface, ensuring a mattifying effect; Burdock normalizes and rebalances the skin tissue, while Liquorice is rich in glycyrrhetic acid, which features cortisone-like properties guaranteeing an effective treatment of inflammation.

Glycolic and Mandelic Acids

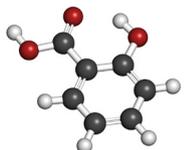

They are particular Alpha-hydroxy Acids exerting a delicate action, fostering the epidermal cell renewal and allowing the skin to gain an improved smoothness and a fresher and firmer appearance.

Cetiol Ultimate

It is a naturally-derived oil, very similar to sebum and characterised by three sensorial benefits: freshness, dry touch and volatility. It improves hydro-lipid balance and gives a marvellous skin-fel, bright but not glossy.

Salicylic Acid

It is a beta-hydroxy acid derived from the enzymatic hydrolysis of salicine (extracted from the willow tree), characterised by sharp polishing and keratolytic properties. It fosters the exfoliation of superficial skin layers.

How to use it

Apply every night on perfectly cleansed skin; perform a gentle stimulating massage, until absorbed.

Warnings

The product is formulated in compliance with current European legislation. Under normal conditions of use, at the present time, the product has no particular contraindications. Use only on unbroken skin.

PURIMASK

SCRUBBING REBALANCING MASK

Occlusive and sebum-absorbing White and Blue Clay, natural exfoliating fibres, derived from Loofah, and the wide dermo-purifying action of Pureness Blend.

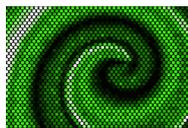

This fine scrub mask, conceived for home use, removes the dead cells from the horny layer and takes care of combination and oily skins ensuring a threefold effect: reduction of pore size and visibility, regulation of sebaceous secretion and restoration of skin balance. The final result is a bright and polished skin, with reconstructed balance and beauty.

Dermo-purifying scrubbing mask
100 ml tube, for home use

Characteristic ingredients

Pureness Blend

The exclusive Beauty Spa blend for oily skins. It combines three targeted plant extracts: Rose Hip, Burdock and Liquorice, exerting a stunning action. The first reduces the sebocyte differentiation, slackens the sebum secretion and resizes the pores surface, ensuring a mattifying effect; Burdock normalizes and rebalances the skin tissue, while Liquorice is rich in glycyrrhetic acid, which features cortisone-like properties guaranteeing an effective treatment of inflammation.

Loofah fibres

The *Luffa cylindrica* is a type of pumpkin, a big annual herbaceous plant whose tiny fibres exert a gentle exfoliating action.

Shea Butter

A highly moisturising and nourishing ingredient, selected for its important smoothing, softening and brightening effect on the skin tissue.

White and Blue Clay

They are sebum-absorbing and mattifying pure mineral clays and their particular texture exerts a very delicate polishing action.

How to use it

Apply a small amount of product on dampened skin, gently massage and leave on for some minutes (5-10). Then rinse and remove thoroughly.

Warnings

The product is formulated in compliance with current European legislation. Under normal conditions of use, at the present time, the product has no particular contraindications. Use only on unbroken skin. Avoid eyes area.

SEBOCONTROL

DAILY SEBUM ABSORBER

The texture of this product, specifically conceived for oily and impure skins, resembles that of a sorbet: fresh, light and pleasantly smoothing. The perfect balancing of humectant factors and oil allows for an optimal hydration, made even more effective by a specific texturizer featuring mattifying and sebum-absorbing modified starches.

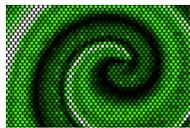

Your skin will immediately look healthier and more vital, moisturised and soft, all this without a greasy appearance. At the same time, Pureness Blend reduces the pore visibility and balances the skin tissue, thus establishing a pleasant mat effect.

Sorbet-like mattifying and sebum-absorbing emulsion
50 ml vase and 200 ml tube,
for home and professional use

Characteristic ingredients

Pureness Blend

The exclusive Beauty Spa blend for oily skins. It combines three targeted plant extracts: Rose Hip, Burdock and Liquorice, exerting a stunning action. The first reduces the sebocyte differentiation, slackens the sebum secretion and resizes the pores surface, ensuring a mattifying effect; Burdock normalizes and rebalances the skin tissue, while Liquorice is rich in glycyrrhetic acid, which features cortisone-like properties guaranteeing an effective treatment of inflammation.

Vitamin E

It contrasts the free radicals with its antioxidant action and helps in rebuilding the horny layer and improving the skin elasticity.

How to use it

Apply every morning on perfectly cleansed face skin; perform a gentle stimulating massage, until absorbed.

Warnings

The product is formulated in compliance with current European legislation. Under normal conditions of use, at the present time, the product has no particular contraindications. Use only on unbroken skin.

SEPTIGEL ACNE CONTROL

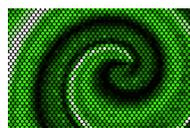

A delicate product, to be directly applied on the pimple to foster its healing. It contains Ozonized Sesame Oil, exerting a natural antibacterial and purifying action, and is enriched with refreshing Menthol derivatives and porous powders, aiming at rapidly dry out the blemish. Thanks to its special formulation, fine-tuned by the Pureness Blend, Septigel fosters the sebum absorption and the inflammatory status rebalancing, thus actively contrasting pimples and acne. A first aid measure for most demanding skins.

Absorbing and purifying gel, specific for pimples
15 ml tube, for home use

Characteristic ingredients

Pureness Blend

The exclusive Beauty Spa blend for oily skins. It combines three targeted plant extracts: Rose Hip, Burdock and Liquorice, exerting a stunning action. The first reduces the sebocyte differentiation, slackens the sebum secretion and resizes the pores surface, ensuring a mattifying effect; Burdock normalizes and rebalances the skin tissue, while Liquorice is rich in glycyrrhetic acid, which features cortisone-like properties guaranteeing an effective treatment of inflammation.

Ozonized Sesame Oil

This unarguably energizing, restructuring and sanitizing active ingredient “dialogs” with the skin, fostering the tissue regeneration and revitalization and the improvement of cellular energy, thanks to the increase in the ATP content. But there’s more: it stimulates the fibroblasts to produce collagen, elastin and glycosaminoglycans, thus keeping the skin younger for longer. These benefits result in a rejuvenated, fresh, vital and healthy skin.

Tea tree oil

The Tea tree oil is extracted from the leaves of the Melaleuca Alternifolia tree, also known as Tea Tree. It is well-known since ancient times among the Australian aboriginals as a “universal natural healer”, as it features soothing, anti-inflammatory and purifying properties.

Menthyl lactate

It features a pleasant refreshing effect, to be perceived on the product application. Its action is more durable and less irritating than that of menthol.

How to use it

After cleansing, apply directly on the pimple without tapping. Leave on to work.

Warnings

The product is formulated in compliance with current European legislation. Under normal conditions of use, at the present time, the product has no particular contraindications.
